June 2019

Managing Director's Report

Dear Team **SYFERFONTEIN**.

As we move from the 2019 Financial Year at the end of June into the 2020 Financial Year we can say with assurance that *'times are tough'* in the South African Market place.(SA Inc.).

The SA Inc. economy limps along at a pedestrian pace and in these times all stakeholders (Employees, Management and Customers) must *'think out of our comfort zones'* to maintain Business sustainability and profitability. Customer Service levels must be improved and out of necessity, wastage removed from the *'system'* which usually hides away during the *'Good Times'*.

A huge thankyou to Team **SYFERFONTEIN** for all your continued enthusiasm, commitment, passion and smart work.

The focus for the SYFERFONTEIN Dolomite Mopane Operations is the successful processing of the surface stockpiles to build buffer stock and reduce costs significantly.

The focus for the SYFERFONTEIN Carbonates Mopane Plant is for improved operational efficiencies and systems and in so doing penetrate new Markets to increase sales volumes and our Customer value proposition.

The focus for SYFERFONTEIN Carbonates Modimolle Plant is for improved market penetration into SA Inc. markets and in so doing utilise production capacity responsibly whilst the African Markets recover from the current downturn during the next 12-18 months.

Challenges are what make life interesting and overcoming them is what makes life meaningful. –Joshua J. Marine

Stay safe, work safe and let us operate together as a Team for the benefit of all Stakeholders.

Best wishes
Dane.

Modimolle Plant

Upgrading Diesel pump meter

Machine upgrades

Lab upgraded, with its own water tank on the plant.

Re-vamp our hostel

We installed a safety gate at on the hostel road.

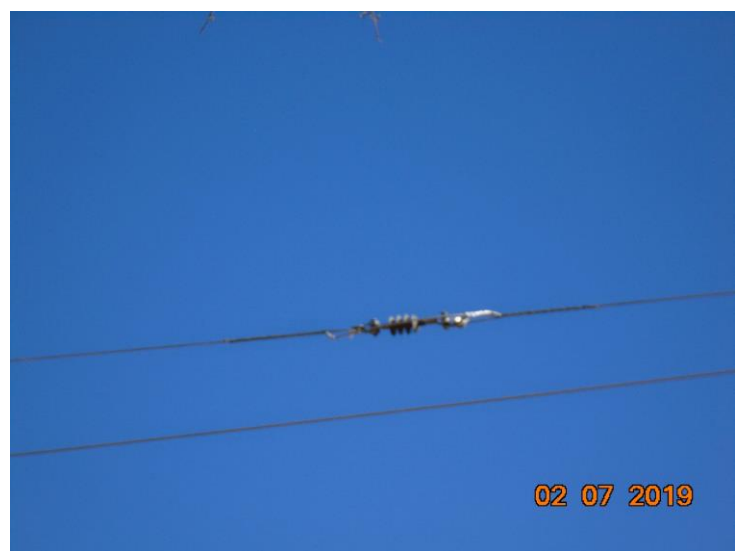

Upgrading our fan on the plant with a silencer.

Some safety upgrading and re-building on our compressor.
